

STRIP FREE STRIPPER

Heavy Duty Polish and Seal Stripper

Strip Free has been formulated for the removal of old polish build up and polymer emulsion floor seals. Low foaming and excellent penetrating power, its action is unexcelled. The powerful blend of chemical agents attack and bite through old seal coatings with minimal effort. Strip Free will remove floor finishes as well as emulsion floor seals.

(N.B. when used to remove floor finishes it will also affect the emulsion seal).

- Removes problem coatings quickly with minimal effort
- Excellent penetrating power bites into old polish layers fast
- Low foaming
- Can be used with a machine or a mop
- Will remove floor finishes as well as emulsion seals

APPLICATION

For removing emulsion floor seals: use 1:4 parts with water, apply solution and allow to soak for 15 minutes. Do not allow the solution to dry out, keep wet.

Use a floor machine fitted with a black stripping pad. Scrub floor—do not vacuum on first pass.

After allowing soaking time, wet vacuum the floor. If the old seal or polish remains, repeat the process.

Finally, thoroughly rinse the floor with clean cold water and allow to dry before applying a new finish such as *Sola II*, *Supersola*, *Gloss Xtra*, or *Hyflex*.

Strip Free contains 10% ethanol and is classed as **irritant**. Check labelling for safety instructions.

PACKAGING

Order Code : Y-AP264

Pack Size: 2 x 5L

STORAGE

Store in original, sealed container.

Keep lid tightly closed when not in use

Keep out of the reach of children.
